

When cancer strikes,

HOPE

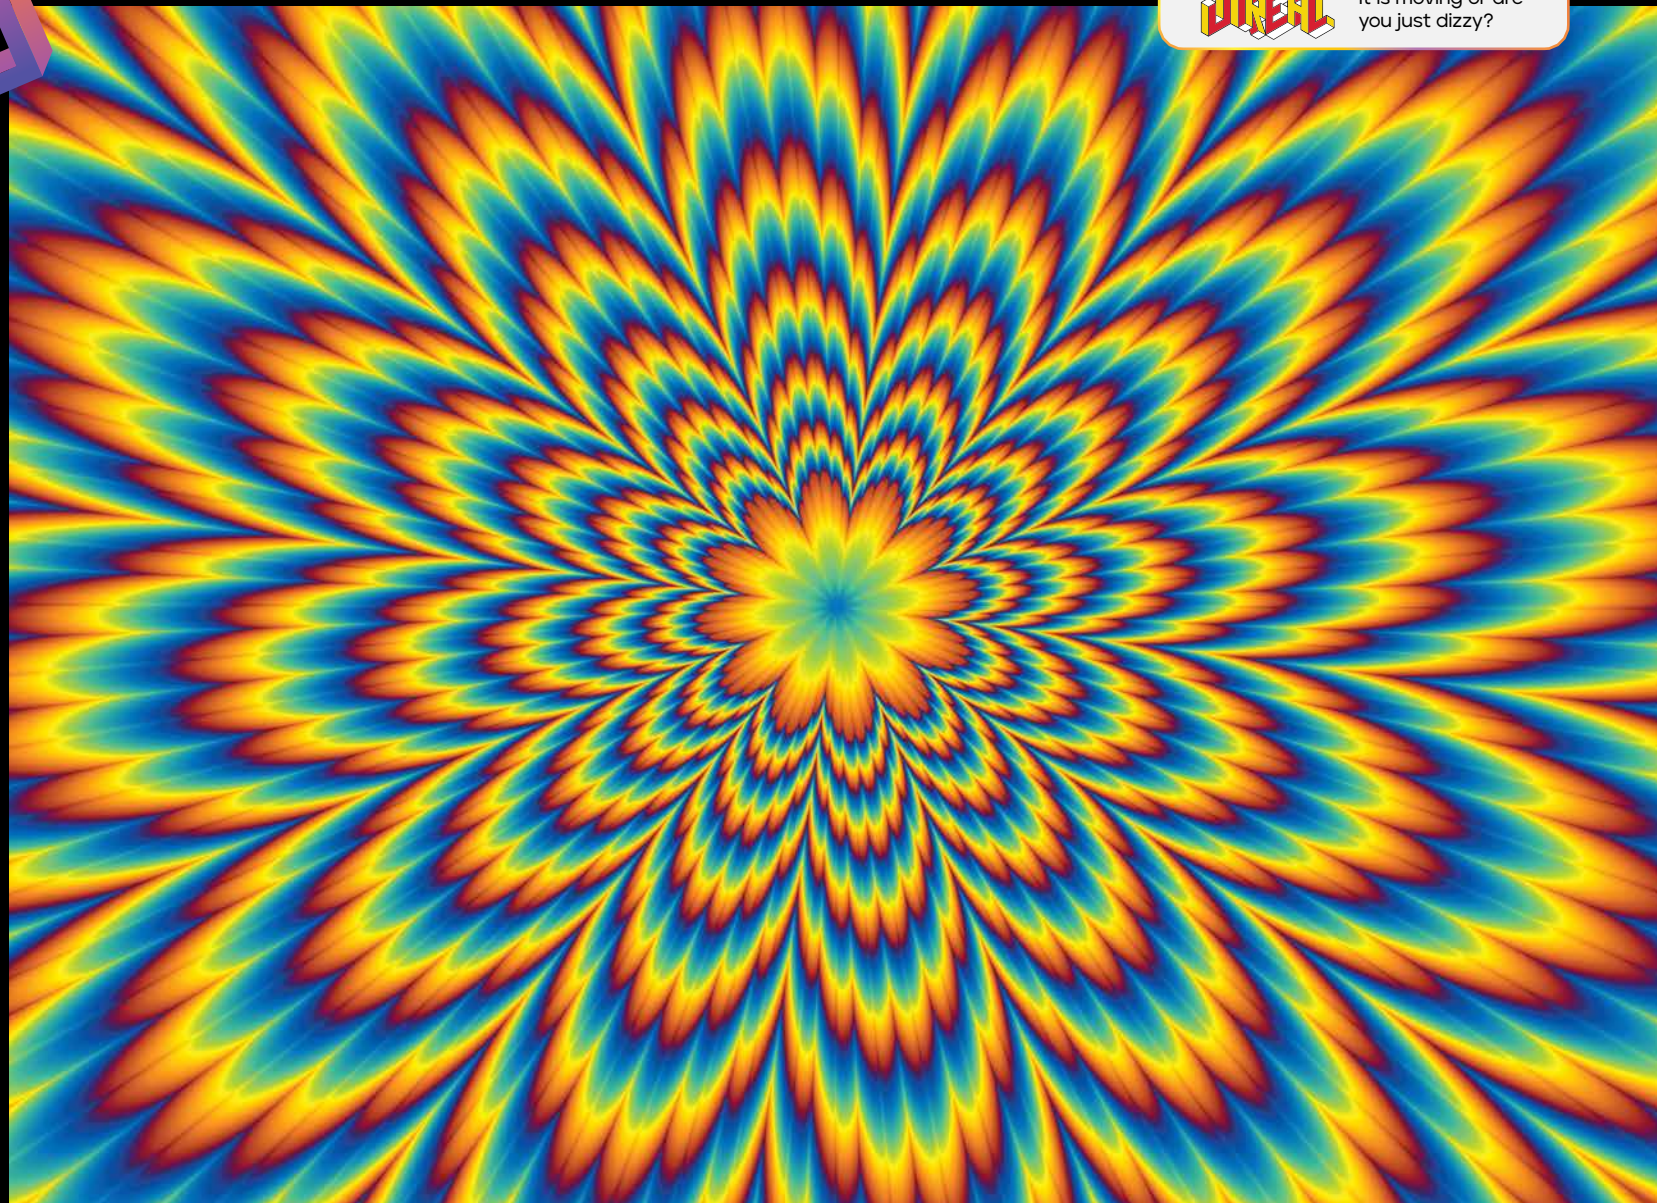

is hard to see.

Illness creates the illusion
that there is no hope.
The fear feels unreal,
and the future drifts out
of focus for Cholei Yisroel.

It is moving or are
you just dizzy?

- Look once...
you see calm.
- Look again...
you see chaos.
- Look deeper...
you see courage.

Is the ball really
moving upward?

Together, we show Cholei Yisroel
the real picture, that even in darkness,
they are never alone.

Klal Yisroel is

We're raising

You'll see!

**We're
shattering
the illusion.**

Side by side, we turn their pain into
unstoppable support, standing with
our brothers and sisters through
every step of the fight.

The illusion of normal

a world of pain.

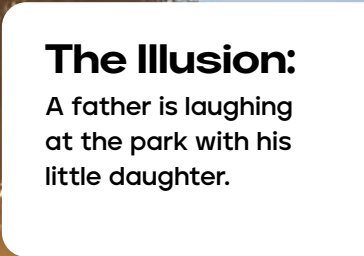

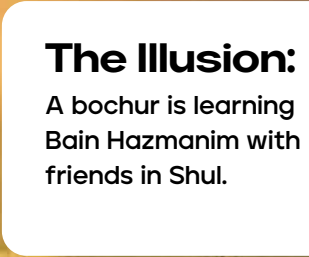

RCCS reads between the lines, supporting the struggle beneath the surface.

The Power of Perspective

By: Rabbi David Ashear ————— Author of the Living Emunah Series

Life often feels like a stage where the scenes we witness are fixed and undeniable. Challenges, crises, financial burdens, and frightening diagnoses can make us conclude: This is reality. This is how it is.

But the Torah teaches that what we call "reality" is only what our eyes can see. There is always another layer — a deeper dimension where Hashem orchestrates every detail with precision. The world we perceive can be deceiving, and the truth of Hashem's hashgachah is often hidden.

That is why this year's theme, "UNREAL," is so powerful. What looks impossible or irrational is, in truth, the most real thing of all. Hashem runs the world, opens doors no one imagined, and closes others with wisdom beyond our understanding.

We all carry stories of the "unreal." A doctor's prognosis overturned. A job offer arriving out of nowhere. A shidduch suggestion that became perfect. A bill suddenly paid in full. In each moment, the mask of "nature" lifts,

revealing the deeper truth: Hashem is here, guiding every heartbeat and every twist of life's journey.

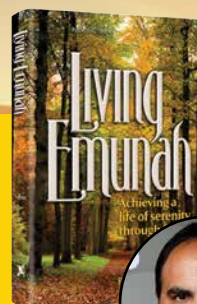

Living Emunah teaches us that what seems "unreal" is actually the highest reality — Hashem's hand. As part of this year's RCCS campaign, you are invited to share your stories of emunah and hashgachah pratis, where the unreal became real and Hashem's presence was revealed in unexpected ways.

These stories remind us we are never alone, never forgotten, and never bound by what we see on the surface. May they inspire us to recognize hidden miracles and trust that, no matter what we see, Hashem is always guiding us with love.

When illness blurs the picture, you bring emunah back into focus. Your dedication is a reminder that even in darkness, Hashem's goodness is waiting to be revealed.

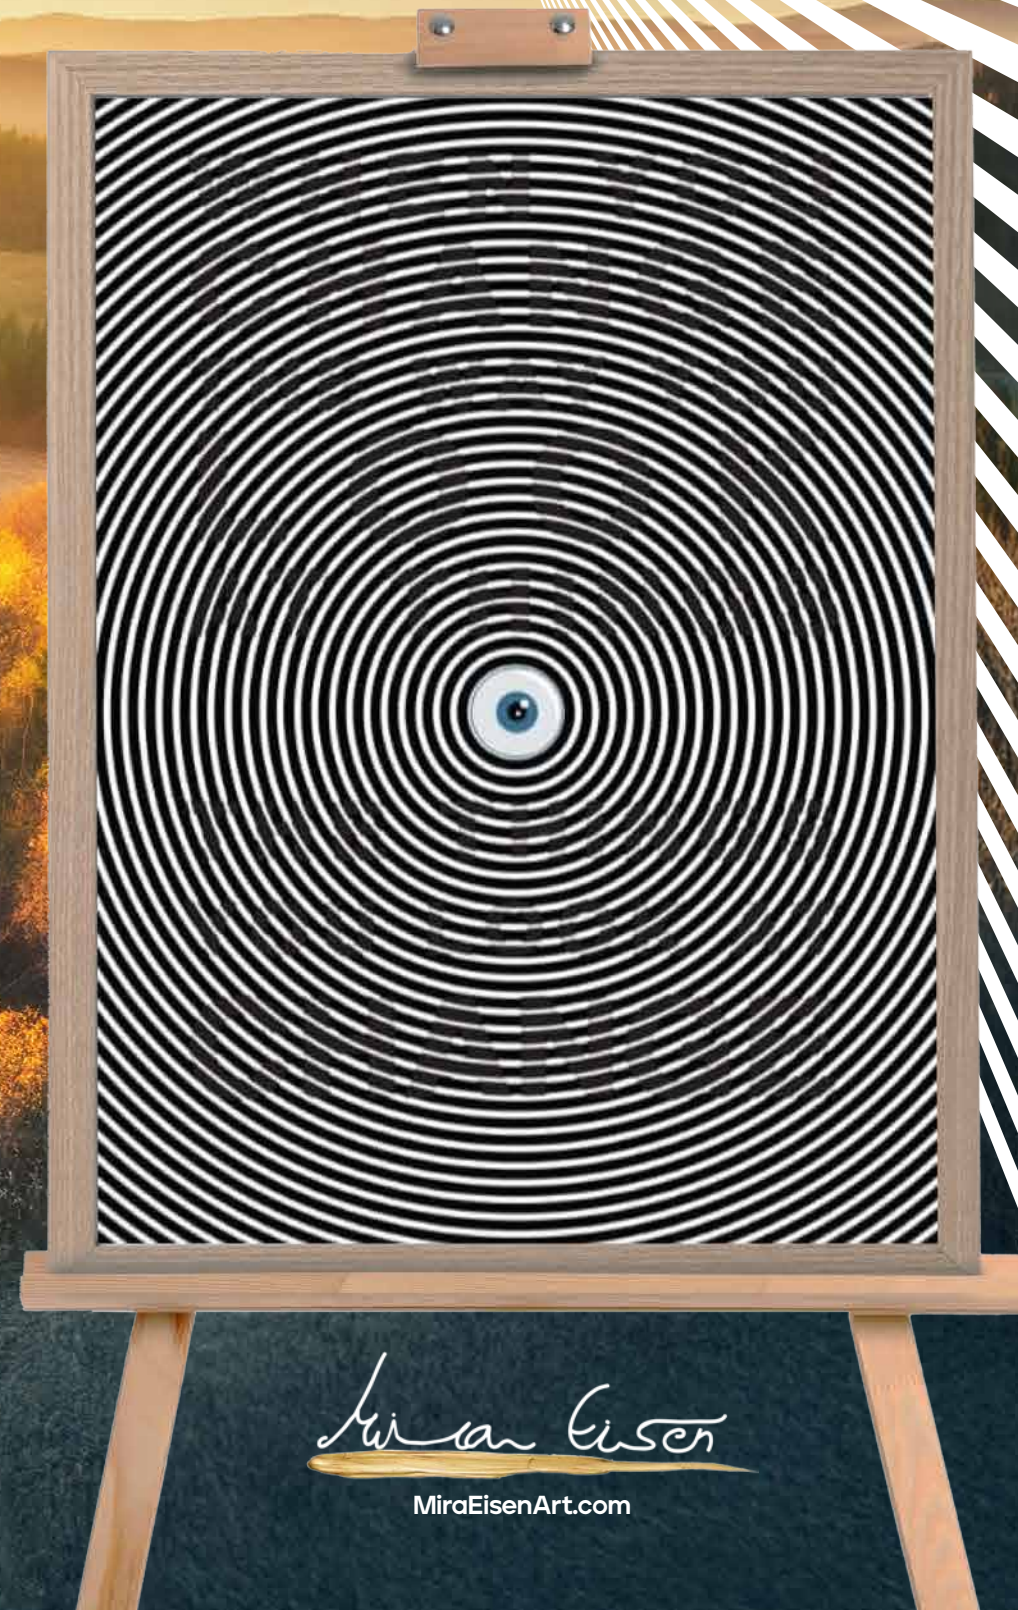

Submit your emunah stories:

Cancer Hides: **Good** Thing You Checked.

RCCS knows when it's time to get real about your health.
For men and women 40 and older, your health screening can be
lifesaving—catching what you can't see before it becomes serious.

**Get Screened
Today!**

Baila's Wake-Up Call:

I had just turned 40 when my OB gave me my first mammogram prescription. I knew it was important, but it kept getting pushed aside—appointments, groceries, the kids, errands. Weeks turned into months, and before I knew it, a year had passed. Even a friend reassured me, "You have a full year—you don't need to rush."
Then I heard about a young, put-together woman in our community diagnosed with breast cancer. That same day, I looked up the number and finally made my appointment.

When they found cancer, I was stunned. Me? Only 41. My first mammogram. The doctors explained that that's exactly why screening starts at 40. One in eight women will get breast cancer, and mine had been growing all that time while I was nursing. If I hadn't gone that day, it could have grown much larger, requiring a more serious procedure.

Now I tell every woman: don't wait. The day you turn 40, schedule your mammogram. You don't even realize how much you love your life until you're faced with the thought of losing it. Getting screenings is a gift from Hashem—a way to protect the most precious thing of all.

—Baila, Lakewood, NJ

Look Again.
Your Health Is Not
Always What It Seems...

A Rabbi's Reminder:

Having some family history, I embraced my doctor's recommendation to go in for a routine colonoscopy. It was shortly after my 46th birthday and he informed me that the guidelines have recently changed and it was now recommended to everyone over age 45 and it is covered by insurance. I know it involved some uncomfortable prep, but I was ready and willing to go and do it.

There was a long wait time for scheduling and during that time a woman in our community that is my age was diagnosed with stage 4 colorectal cancer. This motivated me to call again and push for an appointment. [B"H she had recovered since and is cancer-free now.]

I was scheduled for mid-August, and I went in that afternoon thinking it will be a quick in-and-out. However, during the test the doctor informed that 'something didn't look right' and a biopsy and bloodwork were necessary. It turns out that a small tumor was growing in my colon.

B"H it was very small when it was caught, and the tumor didn't have a chance to do any damage or spread anywhere. The doctors made it clear that surgery was needed to remove a section of my colon and since we caught it so early, that is all that will be needed. It was small, just 1.9 cm, and hadn't spread, baruch Hashem.

I remember when I made that first call to RCCS. Naturally I was a mess, but they were so amazing. They calmed me immediately — told me how lucky I was to find it so early and that I would be okay. Then I was told the most important thing: Your job now is to tell your story to all your friends; you are the poster child for why an early colonoscopy is so vital. Cancer caught early is cancer that can be treated and cured

B"H I had my surgery a few weeks later, on election day 2024. Fortunately, it was in an uncomplicated part of the colon, and my surgery went well B"H. Just this week I had my one-year follow up and everything is clear and healed amazingly. I am grateful to Hashem that I took that colonoscopy when I did and that I didn't delay it any longer. Finding it early made all the difference.

I had no signs and no symptoms. I did the right thing and was B"H helped. Many of my peers who heard my story have gotten checked, and if you're over the age of 45, or have a family history, I urge you to schedule your colonoscopy today.

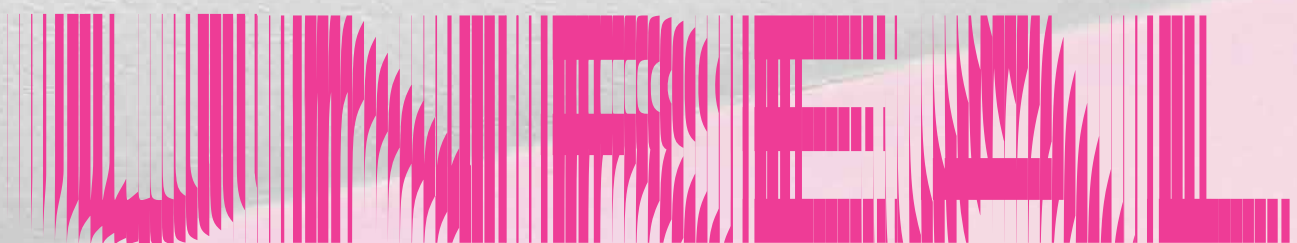

In the merit of our hishtadlus Hashem should grant everyone only health always.

R' M.G. Chabad Shliach in the Southern US

The RCCS Women's Health Division

Heroes at Work

RCCS is staffed with a team of referral specialists, each focusing on a specific category of cancer. Their up-to-date research of treatment options and clinical trials allows them to facilitate the care of each cancer patient with the best doctors and hospitals worldwide. Here's a highlight on the RCCS Women's Health Division!

Early detection can save a life!

At RCCS, we see what others might miss. Our Women's Health Department cares for patients with breast and gynecologic malignancies, as well as those needing high-risk surveillance because of family history or genetic factors, such as BRCA+ . Every woman's journey is unique, and every plan is personalized.

Our medical coordinators are your guides, helping you navigate the many specialists involved in care so nothing gets overlooked. Knowledge should never be a barrier — we empower you to make the best decisions for your health.

It's never too early to reach out. Even if there's only a suspicion, early action can change everything. We coordinate screenings, high-risk surveillance, and supportive care — from nutrition and physical therapy to reconstructive specialists — so no woman faces cancer alone.

Our coordinators train weekly to stay on top of the latest research and clinical trials.

At RCCS, we're here to hold your hand and guide you through every step.

UNREAL RESULTS

NOT EVERY ILLUSION IS DECEPTION.

Some are science—working quietly beneath the surface. Zahler Berberine supports healthy weight management by promoting healthy glucose levels, boosting insulin resistance, and promoting metabolic health. **The outcome? Real transformation that feels unreal.**

Do not use if you are pregnant or nursing. If you have a medical condition, consult your healthcare provider before using this product.

Working together to help cancer patients in need

As the owner of Road to **Recovery Physical and Occupational Therapy**, there is nothing that pleases me more than being able to contribute to the cause of RCCS, one of the most reputable and respected organizations in New York.

When a great tragedy such as cancer strikes, no one will be there faster than RCCS to lift one's spirits and relieve one's burdens.

At Road to Recovery we strive to build our mission in the image of RCCS in facilitating our patients' quick recovery from whatever ailment or pain has impaired their daily function.

We deliver the finest physical and occupational therapy available using the most advanced manual and mechanical methods, both conventional and holistic, applied in the most sensitive manner by highly trained professionals.

Together with RCCS we hope to continue serving the communities of Williamsburg, Boro Park and Crown Heights for many years to come.

Sincerely,

Founder and CEO

This year's RCCS Auction is dedicated
in memory of the late

DR. TALI SKOCZYLAS ז"ל

לעילוי נשמת **טלי בן אברהם** ז"ל

A true eved Hashem who dedicated his life to helping people. As a doctor, he was always available to assist people medically. As a community member, he quietly and discreetly helped those in financial need. And to his family, he was a loving role model, a true leader and a genuine inspiration.

May he serve as a meilitz yosher for all those suffering from cancer, as well as anyone who needs refuos and yeshuos of any kind.
